

# Exit Polling for the Mexico National Elections

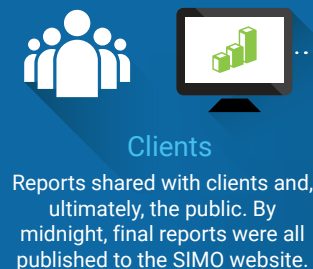

Data entered into SurveyCTO as it was phoned in.

Data automatically aggregated as it came in from the tablets and data center.

Data automatically exported to StatWing.com for visualization and analysis.

Reports shared with clients and, ultimately, the public. By midnight, final reports were all published to the SIMO website.

**25,000** interviews. Conducted. Analyzed. Reported. **In 1 day.**
